The Blendtec Smoother[™] *The Legendary Performer.*

The Blendtec Smoother™ The Legendary Performer.

For years the Smoother™ has set the standard in blending frozen drinks. Today the Smoother™ is so respected it's still the blender of choice of many of the world's leading smoothie and frozen coffee retailers. And just why all the respect and popularity? The reasons are clear!

PROGRAM+PLUS™

No blending chore is too tough for the Smoother™. Program+Plus™ provides 30 pre-programmed blend profiles available to you with a touch of a key. Select the blend profiles best suited to your needs and assign them to the keypad. Smoothies, frozen coffees, and other frozen delights are made perfectly everytime. No more hassles with timers and buttons! With Program+Plus™ there are 30 more reasons to blend with the Smoother™.

MORE POWER

The Smoother™ delivers 50 percent more power than other commercial blenders. Hard ice cream, big ice cubes, frozen fruit...bring 'em on! More power means less blending time and faster delivery to your customer.

VERSATILITY

The Smoother™ was designed with you in mind. No need to purchase a different machine if you change the layout of your counter. Put the Smoother™ anywhere—it's versatile.

ATTRACTIVE, FUNCTIONAL DESIGN

The Smoother™ is a designer's ideal: space-saving, ergonomic, and easy-to-clean. The jar is half the weight of other jars, stackable, and can be personalized with your company logo. And the lid was designed to require little effort — easy on and easy off.

The Blendtec Smoother™ combines power with intelligence and beauty.
